#### Accident Investigation Summary

Summary Nr: 98408.015	Event: 08/02/2017	Employee'S Fingers Are Caught In Rollers, Causing Fractures

At 8:00 a.m. on August 2, 2017, Employee #1 was checking the product flow of the roll stand. The employee saw that a plastic cube had fallen from the flour sifter and landed on top of the chill rollers where the corn is ground. The employee reached into the ingoing nip point from the chill rollers and attempted to pick up the cube, when his second, third and fourth fingers became caught between the chill rollers. The employee was able to pull his hand free, but sustained fractures to the three fingers. Employee #1 was hospitalized for treatment and the tips of the injured fingers had to be surgically amputated.
